

HELVETAS
MOZAMBIQUE

WASH Activities

for Communities
Hosting IDPs

Context

The project is implemented by HELVETAS in partnership with **AMASI** and District Infrastructure Services in the districts of Ancuabe and Chiure, at **Cabo Delgado province**.

The project responds to the need to support the communities that are hosting the displaced people arriving from districts of the north of the province.

Objective

The objective is to provide WASH services to the displaced people by improving access to safe water, proper sanitation services and guaranteeing basic hygiene standards for IDPs and hosting communities.

PROJECT
DURATION

SEPTEMBER 2020
NOVEMBER 2021

Beneficiaries

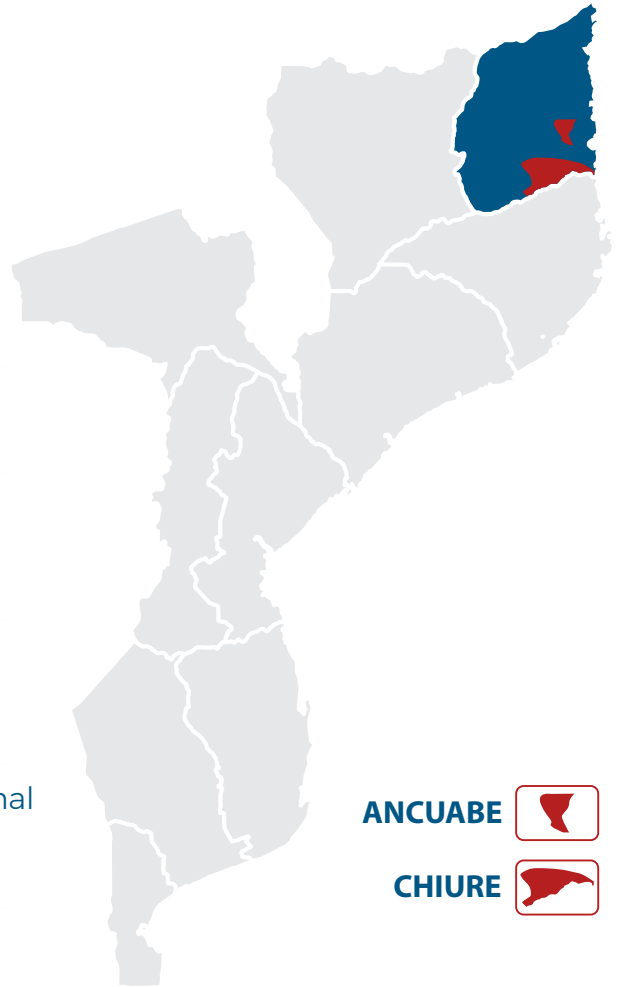

This project will support 22900 people, among displaced people and host communities.

22900
BENEFICIARIES

Expected Results

- ✓ Increased access to safe water in communities that are hosting war displaced persons.
- ✓ Greater access to good sanitation conditions, self-realization of family latrines.
