

CiviKos, with the support of DEMOS have created the **Social Audit group in Peja**.

Project	Restoration of Karagaq Park -
The total price of the works in the contract	69,879.24 Euros
Status of the contract	Uncompleted

The Social Audit Group has 20 members.

KEY FINDINGS

The metal seats placed in Karagaq Park do not offer comfort.

The park does not provide suitable infrastructure, such as ramps for wheelchair users.

The park is not been protected as it is often damaged (lack of guards).

There is no lighting in the park after 11:00 p.m., and therefore not providing enough security for citizens.

There is still inert waste not cleared at lake side.

RECOMMENDATIONS

To look into the possibility of modifying the metal seats, to make them more comfortable for citizens during all seasons.

The lighting in the park should remain on even after 11:00 p.m., by that increasing the safety of by-passers.

The municipality should engage citizens more actively when designing similar projects.

To place cameras in the park aiming to increase supervision of possible damaging.

To increase lighting in other parts of the park, and plant more trees.
